

The Ultimate 2 in 1 Electronic Passport System Delivers:

- >> ePassport Book
- and/or
- >> ePassport Card

Complies with ICAO Standard.

eP-Xpress is a unique hardware and software solution to allow state authorities to issue passport books and passport cards, using state of the Art technologies.

ePassport Books

- System encodes contactless chip and prints in one easy pass
- ePassport books can be read easily using their chip contactless interface
- ePassport is ICAO (International Civic Aviation Organization) compliant
- ePassport carries security features for authenticity verification purposes

ePassport Cards

A Passport Card is a convenient credential to carry. It will be always with your subjects. They will carry it as a main credential and use it as a travel document.

But wait.... There is more.....

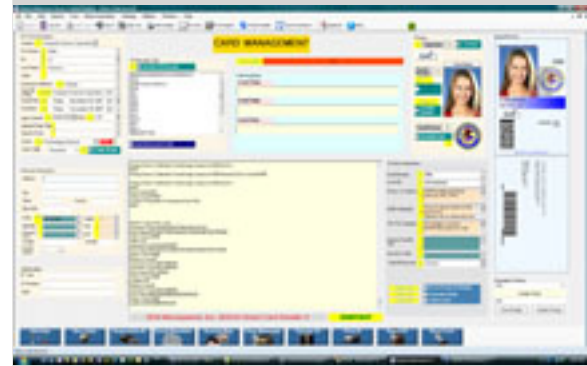

Our Chip storage capacity offers great capabilities, all using state of the art security algorithms to protect the identity of the holder. Chip storage can be partitioned to accomodate many applications in one chip. It is like you are holding many cards in ONE CONVENIENT CARD.

- Social Security
- Driver's License
- Government ID
- And a lot more.

eP-Xpress A versatile Application

Its "What You See is What You Get" interface allows you to preview your passport print before you print..

Less waste! No Errors!

The Diletta Passport printer prints in color and comes integrated with a Smart Chip encoder to allow a one pass printing.

The perfect solution for ePassport books.

The ultra-fast CX-330 is designed to personalize high quality, edge to edge, full-color magnetic stripe, contact, and contactless smart cards.

For high security applications, such as ePassport cards, this printer can be combined with the optional CL-500 in-line single or dual-sided card laminator.

> Due to the superior print process, there is a very low waste factor in card production.

> Cards produced on a re-transfer printer are vibrant with accurate color representation.
